Date

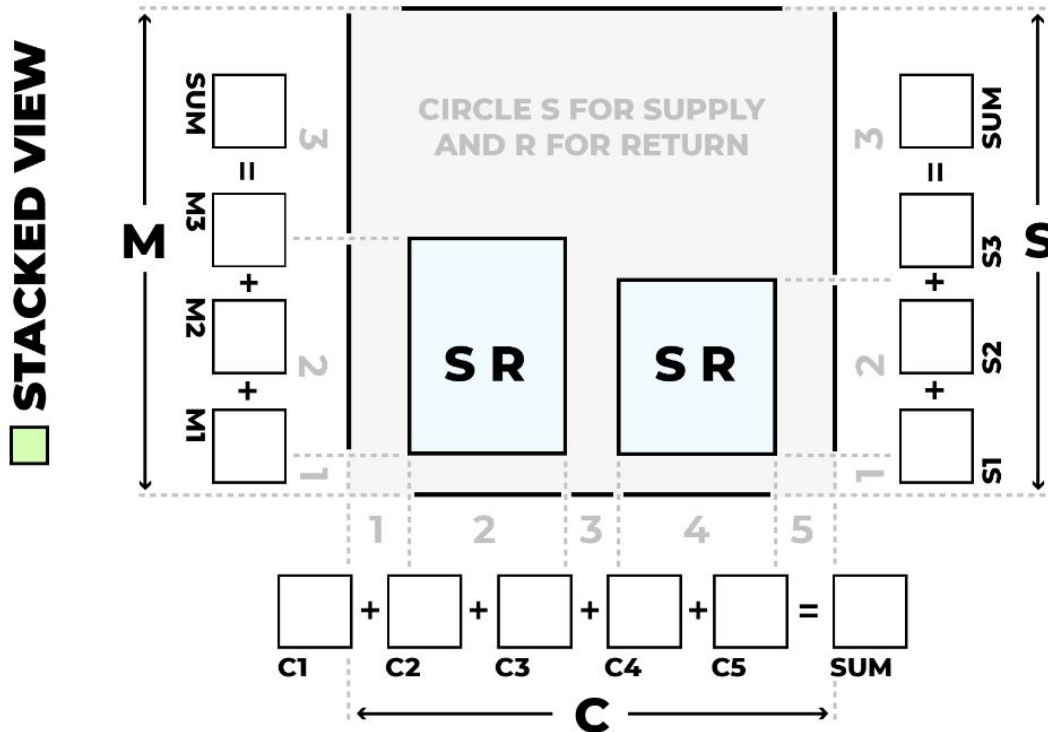

PID Number

PO Number

Sales Order

SIDE BY SIDE

Measurements Not Needed For This Side

Instructions

1 Measure the TOTAL Outside Dimension for sides M, C, and S and write in the SUM boxes

4 If they do match, check the math and remeasure until they do

2 For each side, measure the distance between the dotted lines and write the measurements in the box below it

5 Measure the height of the roof curb and enter in the ROOF CURB HEIGHT box

3 Add up the dimensions on each side to ensure they equal the TOTAL from step 1
